HARDING BUSY AND CONFIDENT

Will Not Quit Senate—Works Nightly—Sees Reporters Twice a Day—Is Confident of a United Party Back of Him.

By Telegram to The Freeman.
Washington, June 15.—Senator Harding is confident he will receive the united Republican support for president.

He stated today that he will give no consideration to rumors of dissatisfaction in Republican ranks.

Time will be allowed for convention wounds to heal. Wounds that remain open will be treated after permanent organization for the campaign has been perfected.

Since his nomination by the convention last Saturday, he has received congratulatory messages from the unsuccessful candidates and pledges of assistance from them or from the managers of their campaigns.

Within a few hours after the nomination had been made, Governor Lowden issued a statement announcing his support of the ticket.

Senator Hiram Johnson telegraphed his congratulations to Senator Harding. He is reported in Chicago dispatches as declaring his intention to support the nominee of the Chicago convention. Colonel William Procter of Ohio, general manager of the Wood campaign, sent a congratulatory telegram to Senator Harding. It was received late yesterday.

Senator Harding accepts as sincere these declarations from his leading opponents and their representatives. Rumors that prominent Republicans will bolt the party because of the lack of sympathy with the platform or other reasons, are not disturbing him.

He was pleased today to have received telegrams of congratulation from many Democratic friends, including Senator Pomeroy of Ohio, and John Walter Smith, of Maryland, stalwart Democratic leaders of the senate.

Senator Harding appreciates that these telegrams are personal. He is himself a party man and believes in party organization.

"If I become chief executive of this nation, I can assure you I will foster the spirit of friendship with France," he declared in reply to a message of congratulation from Paris.

The senator worked late last night at his home. His secretary, George B. Christian, Jr., with two other men, the senator, then after the latter's dinner, and a mass of correspondence was got out of the way. These night sessions will be continued until current business has been despatched.

Although Senator Harding would make no statement on the subject, an authority close to him deprecates the possibility of his resigning as senator.

"Senator Harding resign and permit Governor Cox to name a Democrat to fill the vacancy? Not by a long shot," was his reply.

Senator Harding finds that he can do little work at his office in the senate office building. He is subjected to interruptions and to interviews that he cannot deny. Employees of the capital, with whom he is a favorite, seek him with congratulations. Senators and congressmen drop in on him for a few moments chat. If he ventures from his desk into the corridors of the capital or the office building he is interrupted by the capital guides and presented to the tourists whom they are conveying.

Night work is necessary. The senator has decided, if he is to get through with the accumulated routine business of his office, meet his visitors and keep up his afternoon golf recreation to make him physically fit for the strenuous weeks of campaigning that are ahead of him.

Much of the detail work of his office Senator Harding has turned over to his secretary, Mr. Christian. The office staff has been enlarged. An adjoining room, part of the suite occupied by Senator McCumber of North Dakota, and donated by him to Senator Harding for temporary use, has been made press headquarters.

Senator Harding sees the newspaper correspondents in the forenoon and again in the afternoon for special conferences. He is available at other times for special inquiries.

"We must work together. I will make it easy for you as I can and ask your consideration for me. There are strenuous days."

It was because of the pressure of business on him already that the senator declined a request to address a hat exercise rally last night in front of the capital, held under the auspices of the G. A. R., the American Legion and the Spanish-American war veterans. The invitation was extended after the senator had completed his plans for the night work at his home.

President John McPherson, of the G. A. R., who presented the invitation, was disappointed. The invitation was accompanied by courteous thanks and such a kindly smile that it left no stone. Senator Harding's name and even will prove a valuable asset to him in his campaign.

He has remarkable eyes. They are brown, large and luminous. They seem remarkably to respond to trouble when he talks, and intensify when he smiles.

They are in marked contrast with other features of his face. The nose is straight, of the Roman type, slightly curved, sharp pointed and large. The jaw is heavy and strong. The hair is thin and worn in a straight, the curls down at the corners, ending in deep lines which furrow the cheeks.

The features give an impression of

WOMEN FIGURE IN ELWELL CASE

By Telegram to The Freeman.
New York, June 15.—The house of mystery at 244 West 70th street, where Joseph B. Elwell, wealthy turf man and international authority on bridge whist was slain last Friday morning was the scene of official activity all night long.

Persons who were with Elwell at the theater party and midnight supper a few hours before the tragedy, were questioned by detectives. The interrogations were conducted in secret and after they were completed early today the detectives declared they had made progress towards solution of the baffling crime.

Among those who were examined in the room where Elwell's dead body was found at 8 o'clock Friday morning were Mr. and Mrs. Walter Lewisohn, Miss Viola Kraus, and Miss Kraus's divorced husband, Victor von Schlegel. The questioning chief concerned Elwell's women friends and his private life in general.

The theory that Elwell was slain by a jealous woman or man was strengthened by the finding of a woman's silk lingerie in his sleeping apartment. The detectives say that the owner is known to them. Among the other discoveries was a note from a woman who signed herself, "Clara." It had been delivered by messenger shortly before Elwell was shot to death and told Elwell that the writer was living at the Biltmore Hotel.

UNIQUE CLOSING.

South Port Ewen Scholars Treated to Long Auto Ride.

The school year of District No. 1, South Port Ewen, was brought to a successful and unique close last Friday. The board of education, consisting of E. W. Hathaway, Rev. C. H. Polhemus and Harry Hummel, made arrangements to give the pupils and their teacher a day's outing by furnishing automobile transportation to and around the Ashokan reservoir and refreshments for all. The automobile of Mr. Hathaway, who had charge of the party, was used in making the trip, as was the automobile of Mr. Elmdorf, who drove his car accompanied by Mrs. Elmdorf and Mrs. Gillette, the teacher of the school.

At noon, within close observation of the aerating plant with its myriad of miniature keys, shooting upward its silver spray, the entire party sat down on the green sward for lunch and refreshments. Opportunity was here offered for the acquisition of facts of knowledge in the field of engineering, geology, zoography, soil, etc. It was a joyous and profitable day for the pupils and all who participated and the board of education is to be congratulated on its progressive attitude.

COURT ADJOURNED.

County Clerk Functioned for Judge Nichols, Who is Disabled.

Supreme court, which had been adjourned to 2 p. m. June 14, by Justice Nichols several weeks ago, to take up the case of Webster against the New York Central Railroad Company and another, an action to recover \$100,000 damages for the loss of the life of Grove Webster, Jr., at the Broadway crossing accident when a trolley car and a West Shore locomotive collided, convened at the court house Monday afternoon, and County Clerk Loughran adjourned the term of court sine die. As was stated by The Freeman a few days ago, Justice Nichols was unable to come by reason of a carbuncle boil on his neck, and the sheriff had been instructed to notify the 48 extra jurors and the witnesses called to appear at the adjourned trial, not to appear.

FIREMAN'S SHOTS.

The Delegate With the Eagle Eye Can Win Hand-some Loving Cup.

In the window of the store of Treasurer Andrew J. Murphy of the G. A. R., on the Strand, are displayed two handsome loving cups of silver and a silver cigarette case, which are to be offered as prizes to the best rifle shot among the delegates at the convention in session here. The prizes are offered by the shooting gallery at Kingston Point Park, and the contest is limited to delegates and members of the various fire companies. It opens today and closes Thursday night. Highest score will win the big cup, and second highest will receive the other cup. The third highest score receives the silver cigarette case. The shooting range will be open to competition throughout the convention period.

Page Has Rheumatism.

By Telegram to The Freeman.
Rome, June 15.—Upon the advice of the Pagan physician, Professor Battistini, Pope Benedict XV has relinquished many of his pontifical duties and has begun a semi-retirement. The Pope was said today to be suffering from extreme acid and rheumatism. He suffered one rheumatic attack in the right arm which necessitated hypodermic injections and massage treatment.

of weariness, of disappointment, even of melancholy which fades immediately when the kindly twinkling, beaming eyes are noticed. "He is very, very human," is the comment of those who know Senator Harding.

BUSINESS SESSIONS OF THIRTY-FIRST FIREMEN'S CONVENTION ARE BEGUN

Delegates We'comed to City's Hospitality by Mayor Canfield and Commissioner Eltinge—Committees Appointed—Scores of Delegates Arriving.

The thirty-first annual convention of the Hudson Valley Volunteer Firemen's Association opened at the spacious Knights of Columbus Home on Broadway this morning and will continue for three days, concluding with a big parade of firemen on Thursday.

The morning session consisted of welcoming addresses and responses, with the appointment of two important committees by President Roscoe Irwin, and this afternoon the convention settled down to the real business at hand.

Preceding the opening of the convention, the "Citizens' Band," under the leadership of Harry Malsenholder, discoursed an excellent musical program in front of the building and was highly complimented by delegates on its ability and leadership.

The delegates, of whom 125 had registered with the secretary up to noon, met in the assembly hall of the club house at 10:40, when Alderman William B. Martin, president of the local committee, called the convention and introduced the Very Rev. John J. Hickey, pastor of St. Mary's Church, who made the invocation, in which he asked Divine guidance in the deliberations of the organization, particularly at this time when clear thinking and sound judgment are so greatly needed in all public affairs. Following the invocation, the band played the Star Spangled Banner.

Mayor Welcomes Delegates.

Alderman Martin then introduced Mayor Canfield, who welcomed the delegates, saying he considered it a privilege to extend the greetings of the city and citizens to the visitors. The delegates, he said, would note that the beautiful delegates' badges contained the seal of the city, and in looking closer would discover the words, "Guard the Gate." There was a time, he said, when it was necessary for Kingston and all other cities to guard their gates, and in that way Kingston in early days had built a redoubt, which showed on the seal. But times have changed and today our only interest, he said, is to see all the delegates remain with us until the last tap of the convention sounds. An old saying was that "all roads lead to Rome," and in these days the roads were filled mostly with foot travelers. Then railroads had carried visitors to the cities, but now they were supplanted by the automobiles, and in traveling through the county nobody could help being impressed by the fact that all roads lead to Kingston. That impression would grow greater as the convention continued.

Mayor Canfield referred to the fact that nowadays every city is practically a Sahara, although some cities had their oases. He did not know whether the delegates had brought their "baggage," and told of a Kingston fireman who on visiting Poughkeepsie bemoaned the fact that he had lost his baggage. When asked how it happened, he replied, "The cork came loose."

Fire today, said the mayor, is the greatest enemy not only of destruction but of construction, and without fire there could be no power and commerce. But in all cases, fire must be properly controlled. Kingston properly controls are by having a paid department which is entirely independent. The paid department is supplemented by a volunteer department of ten companies. Both departments work splendidly together and Kingston feels it has one of the strongest fire-fighting forces in the state. In early days it was the duty of firemen to protect this settlement against the torch of the Indian. Later against the torch of General Vandal's army, but now from the torch of carelessness.

In conclusion the mayor complimented the local committee for the sincere and zealous manner in which it had worked. No detail had been overlooked which would add to visitors' comfort, and he knew this would be one of the best conventions the association had ever held. Kingston knew of the hospitality of other cities and knew that it must do to surpass them, and so the local committee had had to extend its activities. It was a privilege to expand the full freedom of the city to the delegates, and he hoped the good feeling of the entire city and citizens and hoped the convention would cement and foster the cordiality and good fellowship which already existed.

President Irwin Responds.

Former Mayor Roscoe Irwin, president of the association in response to the welcome, said it afforded him a double pleasure not only as president of the association but also as an old time resident. There would be added interest in this convention for members during their sojourn in Kingston because nothing makes a man feel so at home as a hearty welcome and a handshake. He said that the visiting was really the work of the local committee and the extension in which it had been so successful in what the mayor had said and as the hosts of the firemen would feel they were really wanted here. The city of Kingston never takes second place

in its esteem for firemen and the sacrifices they must make necessarily in the line of duty. At no time since the firemen's association had been organized had Kingston lost an opportunity to show its hospitality and it wanted to hold that boast good, so that delegates when they left would leave with a fond yet reluctant farewell. President Irwin's address was received with applause.

Commissioner Eltinge Also Welcomes.

Fire Commissioner William S. Eltinge also welcomed the visitors in the name of the fire department of Kingston and assured them that the department as such would do all in its power to make the welcome such that visitors would not soon forget it; they would find a hearty welcome from the fire department, both paid and volunteer. The volunteer department consisted of upwards of six hundred members, and they as well as the paid department took the stand as the mayor had said, that "Guard the Gate" meant that we must watch the gate for the entrance of our visitors, and then guard it against their departure until the convention was over and the festivities concluded. Mr. Eltinge also received great applause.

Unnecessary Information.

George T. Sweet of West Coxsack, vice-president of the association, also responded to the welcome, which he said was deeply appreciated. Many of the delegates had been here before and partaken of Kingston hospitality, but those who enjoyed it for the first time would appreciate it just as much. They had all gathered to transact the business of the association and to cement anew the friendship and good fellowship which always had prevailed. He had noticed that in the advance advertising matter sent out, it was stated that "The Jail is Closed," and "The Police Are on Vacation," but this information was unnecessary because it had been his experience that the volunteer firemen guards jealously not only the home of the individual but also the flag under which he lives. (Applause.)

Committees Appointed.

President Irwin announced the thirty-first annual convention as being formally convened, and appointed the following committees:

On Credentials—Richard Hallenbeck, Hudson; Henry Schryver, Hyde Park; Joseph C. Harter, Kingston.
On Resolutions—Frank E. Wiley, Suffern; Henry E. McKean, Port Jervis; Frank V. Wilson, Kinderhook; Frank P. Quigley, Kingston; Charles Schwartz, Mt. Vernon; Frank Werowski, Poughkeepsie; Charles Harvey, Hudson.

On Motion of Henry Schryver of Hyde Park, the roll call was dispensed with, and after benediction by Dean Hickey, the convention recessed until 2 o'clock this afternoon.

Convention Notes.

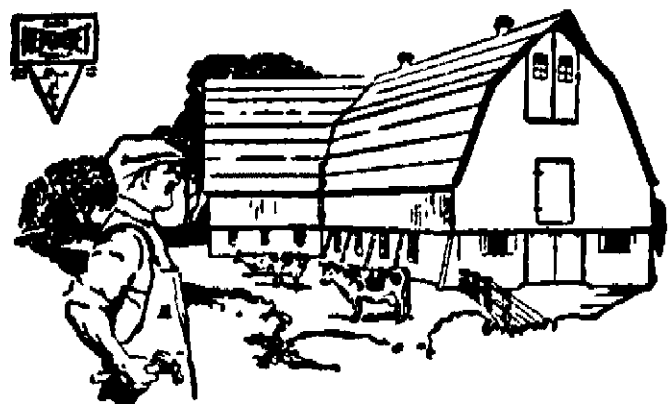

Among the noteworthy members in attendance at the convention is George Scott of Coxsack, who was one of the organizers and first president of the Hudson Valley Association and who has never missed a convention or meeting. He is affectionately known among his friends as "Great Scott." Mr. Scott during the morning session was escorted to a seat on the rostrum by Frank E. Wiley of Suffern and Joseph C. Harter of this city, and thereafter occupied a place between Mayor Canfield and former Mayor Irwin. He is the oldest member of the association and although compelled to walk with a cane, he hopes to be able to attend many more firemen's conventions. Members of the association hope his wish will be realized.

George B. Fales of Troy is attending the convention and as usual will prepare reports of the proceedings for delegates. Mr. Fales has been of great service to the organization in this respect for several years. While in town he is making his headquarters at The Kirkland. For a number of years Mr. Fales was connected with Troy newspapers and always has been active in fireman's matters. For ten years he has been secretary of the Troy Firemen's Association. The badges for delegates and committees are handsome. A gilt bar bears the word "Delegates" or "Committee," and to it is attached a blue ribbon for delegates' badges and from which is suspended a modified Maltese cross emblem. The "31st Convention" on the upper and "June 15-17, 1920" on the lower parts. The left gold contains a lion and the right panel a fire hydrant. The seal of the city is in the center, surrounded by a blue channel the bearing the words in gold "Hudson Valley Volunteer Firemen's Assn."

Once on a time an ardent volunteer fireman of Kingston was so sick that only members of his family and his sister and were permitted to see him for several days. When he was recovering a number of his fellow firemen were called to pay their respects personally and to them the sick fireman told of his illness. "Why, boys," he said, "I was so sick that I could not get out of bed. I could almost hear the bell ringing." The little fireman never said one word of his illness.

EXTOL HOUSE SOLDIER BONUS

By Telegraph to The Freeman

Washington, June 15.—By an overwhelming 3 to 1 vote the Republican House has registered its approval of a cash bonus to the soldiers of the war against Germany as part compensation for the woes they endured for the country during the struggle.

Representative Roscoe McCulloch, of Ohio, thus summed up the case for the soldiers:

"The American soldier not only made the supreme sacrifice, left his business, and the opportunities for personal advancement he had in prospect and that the emergency offered, but he paid his own way largely. The soldier knows what few people realize and that is that after he had taken care of the demands that were made upon him he had very little left out of the \$30 a month pay. The allotments for his dependents were taken out of his pay, his war-risk insurance premiums were taken out of his pay, so that at the end of the month the average soldier did not have much left."

The absolute necessity for reducing appropriations and strict national economy is apparent to everybody, but we should not begin on the American soldier, because we have been very lavish and very liberal in making appropriations for the purpose of taking care of all other interests. We appropriated millions of dollars to validate incomplete contracts. We appropriated millions of dollars for the relief of peoples in foreign countries. There seemed to be no limit to the demands and no hesitancy in responding to the demands for lavish appropriations. Everybody seemed to be protected in a material way who had anything to do with the war except the American soldier, and I am in favor of adjusting his compensation by providing a bonus, and I think it should be done without quibbling and without delay. We spent billions of dollars uselessly for which the government received no adequate return. The floodgates were thrown down and a golden stream was allowed to flow away. Members of congress were called upon to support bills making these lavish appropriations under the lash of the executive whip and in the name of patriotism. Now, we have a chance to do something for the real patriots who served and suffered and bore the brunt of the war.

The provisions of this bill may help to give thousands of soldiers a start. Some may not need it or want it, but all are entitled to it, and I trust that the bill will pass and become a law without delay."

Representative Fear, of Wisconsin, one of the members of the ways and means committee, which reported the bill, said:

"We have worked upon these bills as a committee faithfully. We have reported this bill and have been waiting to be heard for two or three weeks. We secured what we believe is the best bill that we can get out of the committee. I would like to have had it different, but it is far better than if the bill had been burdened with a sales tax, as was first proposed. It provides what? First, a method of taxation covering a period of three years, which reaches expensive cigars, with an increase of 15 per cent on certain tobacco. It exacts \$5 on every \$1,000 of all real estate transfers. It reaches incomes of over \$25,000, and adds to the present rate of 3 per cent with a small increase below that amount. It does no touch widows and orphans or the average man, because they are not engaged in stock gambling, which it also affects. It reaches members of congress with a small increased tax, and it is right that they should be reached and what is it all for? To provide some little recognition for the boys who were in the service, whom you gentlemen sent to war. You took them away from their homes all over this country. You broke up thousands and hundreds of thousands of homes, and hundreds of thousands of jobs were lost to these men by your action when you sent them to war."

Mrs. R. A. Mott and daughter, Norma, of Esopus, spent the week end with Mr. and Mrs. P. Proper.

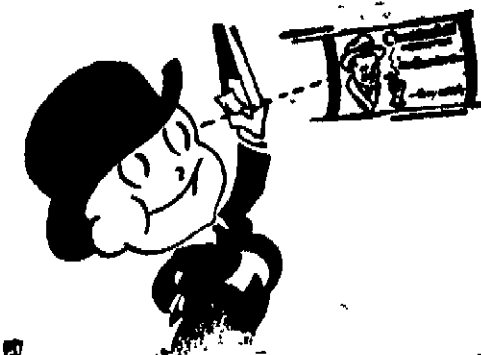

Mr. and Mrs. William V. DuBois visited Mr. and Mrs. Jesse DuBois of Kingston, Sunday.

First Taste Makes You Want More

"and he swapped his grouch for a smile"

GOOM BUT that trolley.
WAS ALMOST as packed.
AS IF they'd squeezed.
ALL THE candidates.
FOR PRESIDENT in.
WHENEVER THE car swayed.
I SAT on the lap.
OF A pretty lady.
MY BRAND new derby.
WAS SUNK without a trace.
AND A garlic breath.
BLEW DOWN my neck.
AND MY foot went to sleep,
AND THE rest of me.
ENVIED MY foot.
AND I was sore.
YES, GOOD and sore.
AND THEN a chap.
WHO CAUGHT MY eye.
CHEERED ME UP.
WITH A jolly grin,
AND SAID to me,
"NO GROUCHES Now."
AND HONEST, I felt better.
IT WAS an ad.
OF A cigarette.
BUT I'll say this.
IF THE ad alone.
CAN CHASE a grouch.
THE CIGARETTES.
THEMSELVES MUST do.
WHAT THE car card said.
"THEY SATISFY."
I'll SAY they do.

IT WILL tickle you to find out how good Turkish and Domestic tobacco taste when blended in the exclusive Chesterfield way. They do satisfy. And you'll be pleased to find out also that Chesterfield keeps firm and fresh in their special, moisture-proof package.

They Satisfy **Chesterfield** CIGARETTES
Ligarettes just themselves

SUGGESTION.

SAUGERTIES, June 14.—The "Thirteen Club," of which Col. John F. Hobbs, editor of the Caterer and Hotel Proprietors' Gazette, is president, spent Sunday at Palenville, the home of Col. Hobbs. The party returned to New York city via steamer Ulster on Sunday night.

Five Day exercises were held on Saturday, June 12, at the home of Mr. and Mrs. John T. Washburn, Barclay Heights. The high school faculty attended.

Miss Hanna Yarns has accepted a position as secretary at Reed & Reed's.

SAWKILL.

Sawkill, June 14.—Miss Martha Hamby, who has been visiting Mr. and Mrs. Thomas Callahan, has returned to New York city.

Mrs. E. McCulloch and Mrs. J. Newman were Kingston visitors on Thursday.

Benjamin Westerkamp and Mrs. Anna Westerkamp of Saugerties spent Friday with Mrs. John Norman.

Orva Chaffee has sold his cows. A large audience gathered at the school Friday evening to witness the closing exercises of the school. The assembly was well conducted and ap-

ceived many favorable comments. At the close the teacher, Mr. Newkirk, was the recipient of several splendid gifts, tokens of the good will and appreciation of his pupils.

BUG-OLOGY
What do you call them?

Bedbug (Cimex lectularius). The origin of the name bedbug is unknown, but is supposed to be naturally suggested as it is descriptive. There are many local names for these parasites, as for illustration, around Boston they are called "Chinchins," from Cincinnati comes the name "Mahogany Flat," in New York they are styled as "Red Coats," around Pittsburgh they are called "Rusty Devils." In Cincinnati and the South "Night Riders," in St. Louis and Chicago district "Crimson Rammers," the name "Pillbugs" is also used. The bedbug has no teeth, but they get there just the same. It is correct. Instead of teeth they possess a piercing and sucking mouth to draw and rob you of your blood for their own body. Bedbugs, no matter what you may call them or where they come from, always have found a way to rid them if you will use faithfully the new chemical fogging device known as "P. D. Q." A little package makes one capable of killing a million bedbugs, roaches, fleas, ants or cockroaches and their eggs as well. P. D. Q. will not injure buildings and each package contains a printed card to enable you to get them the hard-to-get-places. Impossible! P. D. Q. is the answer to bedbug extermination.

Too Much Tobacco Dangerous

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug Nicotine. Stop the excessive use of tobacco now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and in the pernicious habit quickly vanishes. Druggists refuse the money if they fail. Be sure to read large and interesting announcement by Doctor Connor now to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result. Consult Druggist and Dr. Brock Pharmacy.

NOTICE TO SUBMIT BIDS. NOTICE IS HEREBY GIVEN by the undersigned, being a committee of the County of Ulster, duly authorized thereto, that they will open until the 25th day of June, 1920, at twelve o'clock noon, receive sealed proposals or bids for the building and construction of, and the furnishing of all labor to be performed in relation thereto, and the furnishing of all materials to be used therein, of a brick hospital building to be known as the Ulster County Hospital, to be located upon the farm at New Paltz, Ulster County, New York, in accordance with the specifications and drawings and plans therefor, which have been prepared by Myron S. Felt, of 260 Wall Street, Kingston, N. Y., the architect.

The entire work included within the specifications will be let under one general contract, and the names of each and every sub-contractor shall be submitted with the proposal or bid.

Each bidder is hereby required to accompany his bid with a certified check in five per cent of the amount of each bid to insure the good faith of the contract, and if the contract is awarded to any contractor, and he shall fail to execute the contract, and furnish the required money bond, then and in such event the contract shall forfeit the amount of the certified check which accompanies his bid, which shall be considered as liquidated damages for each failure, and not as a penalty; and in addition thereto such contractor shall be liable to the County of Ulster for any and all expenses in connection with the re-consideration of the contract, and also for the difference between the amount of the successful contractor's bid and the amount of the contract price, at which the contract may be subsequently awarded. The contractor to whom the contract is awarded, will be required to furnish a surety bond to the County of Ulster in a sum equal to the amount of his bid for the full performance of the contract. The form of which bond is annexed to the proposal, contract and can be obtained at the undersigned's office.

The bond to be given by the contractor shall be in a sum equal to the amount of his bid, and the same must be acceptable to the County of Ulster or its duly authorized agents or officers. The form of contract has been submitted, to which is annexed the general conditions of the contract, and the specifications of the work, and also the plans or drawings, all of which are part of the contract, and are to be submitted to the County of Ulster, and the same shall be considered as liquidated damages for each failure, and not as a penalty; and in addition thereto such contractor shall be liable to the County of Ulster for any and all expenses in connection with the re-consideration of the contract, and also for the difference between the amount of the successful contractor's bid and the amount of the contract price, at which the contract may be subsequently awarded. The contractor to whom the contract is awarded, will be required to furnish a surety bond to the County of Ulster in a sum equal to the amount of his bid for the full performance of the contract. The form of which bond is annexed to the proposal, contract and can be obtained at the undersigned's office.

The County of Ulster, acting by and through its Board of Supervisors, or any of its duly authorized agents or officers, reserves the right to reject any and all bids which may be received, on any part of the bid.

Witness my hand and seal of the County of Ulster, this 14th day of June, 1920.

JOHN T. WASHBURN, Chairman of the Board of Supervisors of the County of Ulster.

When Released.
By Telegram to The Freeman:
Washington, June 13.—Announcement was made at the White House today that no word has yet been received from President Wilson as to his action on the waterpower bill, which under Attorney General Palmer's ruling regarding the "pocket veto" should have been signed before midnight last Friday night in order to become effective.

Henry Rescued.
By Telegram to The Freeman:
New York, June 13.—Donald Mack, former police inspector, found guilty of perjury, was today sentenced to serve from now to five years in Sing Sing prison by Justice Bruce S. Weeks.

JAIL DOORS YAWN FOR JOHNSON

By Telegram to The Freeman.
Tia Juana, Mexico, June 13.—Jack Johnson, former heavyweight champion of the world, who for eight years has been a fugitive from justice on a conviction of "white slavery," will be in the custody of the department of justice of the United States late today or early tomorrow, according to an announcement from the executive officers of lower California today.

Johnson has been given 24 hours to leave Mexico, the last place of refuge on the face of the earth for him.

Caught in the country wide "drive" against undesirable, which is now sweeping hundreds of "men without a country" out of Mexico, Johnson is being deported as "an undesirable alien."

United States officers are waiting

at the international line. There is no place he can go except to jail.

KINGSTON, N. Y., JUNE 15, 1922.

It is estimated that Russia's deficit this year will reach 24,000,000,000 rubles. Such is Bolshevism in operation.

A Utica, N. Y., prostitute has been fined \$55,000 for a series of offenses, including the purchase of a scarf for \$6.50 and selling it for \$25. Whether the person who paid \$25 for that scarf was sent to an asylum for the feeble-minded is not stated.

New Yorkers hoped for the announcement of a population of six millions, which would enable them to boast of a city bigger than London, but the census counted only 5,821,000. That is enough for the purpose, for the Jersey cities across the Hudson, which can not be counted, are really a part of the greatest center of population in the world. Add them and London will be definitely left behind.

Democrats are not much concerned over electing their candidates. The problem before them is, "How much will we be beaten?" This will be determined wholly by the amount of work the Republicans do between now and November. And the thing, the wise thing, for Republicans to do is to start early. No man ever lost anything by starting early if he knew where he was going. However, the betting this year, that is done by the Democrats, will more than likely be on Republican majorities.

The old torch light processions used to create a lot of enthusiasm and there were many who regretted to see the custom abandoned. The uniforms were attractive, and there were other elements that added zest to a campaign. But this year, unless prices drop, it would be impossible to get enough money to buy one uniform, not alone uniforms for a big marching club. People enjoyed the big parades nevertheless, particularly the contests between the different organizations as to drilling efficiency.

When "O. Henry" (William Sydney Porter) died ten years ago an unappreciated critic expressed the opinion that his work would not long survive him, but his books have steadily increased in popularity in this country and now his fame is spreading widely in the British empire. Such news will not surprise intelligent admirers of O. Henry's masterly short stories, for this native North Carolinian who chose New York as his residence and made the greatest of cities the scene of most of his action—dealing not with the "four hundred" but with the "four million"—knew how to please the most literary of readers and reach the great heart of ordinary humanity at the same time.

A MATTER OF TASTE.

A child asked a man what was "the stout thing in the world." The man was "stumped," deferred a reply, and later put the question up to four of his friends. "A philosopher, a man of the world, a woman and a fool." The alleged philosopher side-stepped with a few flippant and trivial remarks. The man of the world, a bit more serious in tone, said: "The answer is a woman who will not get you into debt, who will appreciate that you are willing to die for her, and who once in a while will be punctual for an engagement." The woman, who chose to be pleasantly frank, said: "Why, of course it is that curious, charming and invariably complex (though as to the attribution of our sin held by decent men when they are in love with us."

According to the "Post," the stoutest thing in the world "is the belief that none of us is bad." He went on to say: "The truth is that none of us is bad. It is harder to be good than to be bad. But why don't you go to a wise man with this question? Instead of trying to do this, application was made to a New York newspaper, which printed the contribution without venturing to express an opinion.

And yet it would hardly seem necessary to find a very wise man in order to throw light on this subject. After all, it is not quite simple: Is there anything that outweighs a

have majority, or even a small minority could agree upon as the most delightful thing in the world? Unquestionably every man regards what he happens to love best as the "stout thing," and this closest and chosen thing varies widely, according to the tastes, quality and character of the man.

CROP NEWS EVEN LESS ENCOURAGING

Early Crops Reduced 25,000,000 Acres and Yields Will Be Low—Abundance of Fruit Only Relieving Feature.

According to John B. Shepard, the recent report of the United States bureau of crop estimates shows that the shortage of farm labor and the unfavorable weather for planting have affected crop production in this country even more than was indicated by earlier estimates. The acreages of hay and barley will be about the same as they were last year but other crops will be reduced as follows: Winter wheat, 31 per cent; beans, 29 per cent; rye, 23 per cent; spring wheat, 16 per cent; potatoes, 5 per cent; oats, 3 per cent. These estimates indicate that the total acreage devoted to these eight crops will be less than it was last year by 23,000,000 acres or 11 per cent. While this is a large decrease it should be remembered that conditions are abnormal in that last year's winter wheat crop was planted before the armistice and the shortages so far reported may be partially offset by increases in later planted crops such as corn and cotton. Then too, the acreages of early planted crops were very large last year, but the yields were low. With normal weather conditions from now on, the total pounds of wheat, oats, barley and rye produced in this country would be only about four per cent less than was produced last year and 3 per cent below the average of the previous five years.

It is worthy of note, however, that during the fifty-three years for which statistics are available, the acreage devoted to these eight crops has increased quite regularly nearly three million acres a year. There has been some fluctuation from season to season on account of weather conditions but the greatest decrease recorded in any previous year was less than 2 per cent and that was back in 1885. From present indications the decrease this season will, therefore, be six times as much as has occurred in any other year since the civil war. Under the circumstances there is nothing surprising in the fact that the average price of farm crops increased 5 per cent during the month of May.

So far this season the weather has also been unfavorable for the growth of most crops. On June 1 clover, alfalfa and "all hay" each averaged about one per cent better than usual, but winter and spring wheat, oats, barley, rye and pastures were all from 2 to 5 per cent poorer than the average on that date during the last ten years, and cotton gave promise of only four-fifths of an average yield. Taking all crops together the prospects are that yields per acre will be 5 per cent less than usual.

The one really bright spot in this month's crop report is the assurance of an abundance of fruit. Apples are expected to produce 15 per cent more than usual, pears 10 per cent and peaches 6 per cent more. Oranges, grape fruit, lemons, olives, pineapples, cherries and blackberries are all better than usual but apricots will be scarce.

PORT EWEN, June 15.—Mr. and Mrs. Charles Saffir of Brooklyn who have been guests of Mr. and Mrs. Louis Saffir and Mr. and Mrs. S. W. Perrine returned to their home Monday.

James Thiele, Jr., has erected a barn on his property on Bayard street.

The strawberry social under the auspices of the Ladies Aid Society of the Methodist Church, will be held this evening. Supper served from 6 to 8 o'clock to which you are all most cordially invited to partake of the "good things" the ladies have provided. The menu was announced in Monday's Freeman and it ought to attract as home strawberries are just ripening now and are a luxury.

At eight o'clock an entertainment will be given in the auditorium of the church under the supervision of Mrs. Maud Davis. No admission but a silver offering will be taken. Mrs. Ditch DuBois of Springtown who has been the guest of her sister, Mrs. Mary Van Alen, on Green street, returned to her home Monday.

Mr. and Mrs. Earl Propper and Mrs. George Propper and daughter, Beatrice, of South Broadway, returned to Albany Monday.

ACCORD.

Accord, June 14.—The Odd Fellows Hall was crowded Thursday evening with dancers who came from all over the valley to hear the music of a co-operative orchestra organized by the Odd Fellows. No dance action was taken and another meeting was called to meet at Green street, Saturday evening, June 15.

The annual convention of the town Sunday School Association will be held at the Methodist church house, Sunday, June 27, all day and evening. Names of speakers will be given later.

Mrs. Ernest LaFleur and daughter of Kingston, have been visiting Mr. and Mrs. Walter Livingston.

At a meeting of clients which was held at Morley Friday we understood that the mutual relationship existing between the Rochester Reformed Church and the Rev. Peter F. Maud was dissolved. Watch The Freeman.

After the Wedding Comes the New Home

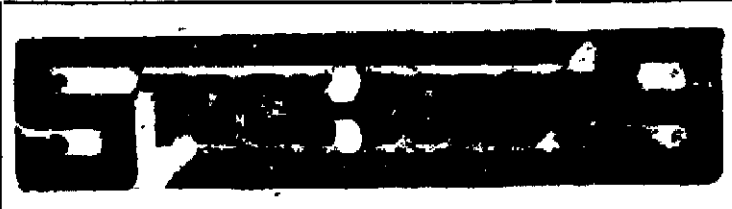

EVERY BRIDE looks forward with real anticipation to the day when she will reign as mistress of her own home. She has planned on a home that will reflect charm and hospitality, a home that will have all the comforts and little distinctive touches that make it a place to which she can invite her friends with real pride. The responsibility of choosing her furniture is something she should approach with care because it is furniture that has the largest influence in making her home either ordinary or unusually distinctive. In fact, choosing your store is almost as important as choosing the furniture itself.

Best of Cooking— with Economy

The New Perfection Oil Cook Stove is the perfect and most economical stove.

The reason for its great fuel saving lies in the perfect and complete combustion of every drop of oil. Then, too, you are not wasting fuel by keeping a fire burning when you are not cooking.

The New Perfection provides the hottest flame for cooking—the high, white-tipped blue flame. You can have intense heat instantly by regulating the handle. Further regulation gives you an even blue flame for slow boiling or simmering. Comes in 1, 2, 3 and 4-burner sizes.

For your further convenience—the New Perfection Water Heater—quickly heats running water. It is easily connected to any circulating water system. Simple and very economical.

CURTAIN MILLS
STATE GRIEVANCE

June 11, 1932.
Editor of the Kingston Freeman,
Dear Sir:—Some weeks ago you
published the report of the hearing
before the public service commission
in regard to the Cornell street rail-
road crossing.
While this report gave accurately
the testimony submitted, there were
several phases of the matter which
could not be touched on in the hear-
ing, but which I feel in all justice to
ourselves ought to be generally
known.
The contemplated change in the
direction of this street is, of course,
made at the expense of our property.
It robs us of a valuable plot of
ground that adds immeasurably to
the appearance of our plant; that

provides a pleasant resting place
morning, noon and evening for our
employees as they come on and off
their shifts; and destroys that at-
tractive arrangement of our build-
ing which we went into so carefully
when the plant was originally con-
structed, an arrangement whereby
all our buildings were surrounded
wherever possible by our own
grounds in order that our place be a
slightly one rather than just one
more factory. I am credibly infor-
med by real estate men, competent to
judge that this arrangement en-
hances the value of a property to an
unbelievable extent in the eyes of a
prospective buyer.
Since the hearing on this matter,
Mr. Gray, president of the Boston
Manufacturers' Mutual Fire Insur-
ance Co., speaking for his and other
allied companies, answering a letter
I wrote him as to the effect the
change would have on our insurance,
wrote me in reply that in his opinion
by reason of the necessary changes

in our own private fire protection
system, our plant would be subject-
ed to an enormously increased fire
hazard, especially since the building
most liable to fire damage as proved
by past experience, is the one de-
rived directly of quick protection
from the outside. Also that this
building, now set back from the
street line would be, under the new
way directly on the street and liable
to further risk through passersby
carelessly dropping lighted cigars or
cigarettes into our windows.
I have only mentioned a few out-
standing facts in this case; those
which in a way link themselves with
the people and the city of Kingston
in addition to ourselves, for in that
connection it is with extraordinary
surprise that I find the city through
its common council and mayor, after
inviting manufacturers to come here
with their plants and giving every
assurance of intention to help wher-
ever possible in the success of their
business, taking an attitude entirely
hostile to such interests. The action
of the mayor in our particular case,
standing as he does, so squarely with
the railroad's attitude, is entirely
beyond my comprehension.

I do not want to appear for an in-
stant as opposing in the slightest any
action that will make for the safety
and betterment of our city; but if
this contemplated change goes
through, it will decrease only to the
very smallest degree the number of
persons who are compelled to cross
the railroad tracks; it will only send
the bulk of those now crossing at
Cornell street to some other crossing.
Just a pair of gates at Cornell street
would clear the whole matter.
Yours very truly,
U. S. LACE CURTAIN MILLS,
E. P. Stiner, Treas.

POLES NOW 75
MILES FROM KIEV

By Telegram to The Freeman:
London, June 15.—The Polish
army that evacuated Kiev, capital of
Ukraine, before the advance of Rus-
sian cavalry, has retired about 75
miles according to advices received
here today.

"Military operations on the north-
ern end of the Russo-Polish front
have been concluded," said a Polish
war office communique telegraphed
from Warsaw.

"The line in Ukraine now runs
from the lower end of the Pripiet
Marshes through Zhitomir and Berdi-
chev. The Bolshevik report that the
Poles destroyed the Kiev cathedral is
false."

The Shop That Predicts Style Interest

The Thrift of a MAXWELL comes from its special steels

Nearly 400,000 owners know well how thrifty a Maxwell really is.

Men in the trade in selling other cars often use the expression "as thrifty as a Maxwell."

Special steels are the underlying cause of Maxwell's thrift.

These are steels, made to Maxwell's own formulae, after years of tests, analysis and study, which make possible the ideal construction of great strength and light weight.

They give a Maxwell the

ability to stand wear, strain, twists and jolts that other cars much larger and heavier would have difficulty to resist.

But they make a Maxwell light. They eliminate useless weight; they ease the burden on the engine and thus gas, oil and tires render long mileage results.

Hence, the ever growing respect and admiration for Maxwell the world over; and its consequent fast growing numbers. Nearly 400,000 in use today; a year hence 500,000.

HANGING CAR SCARES RESIDENTS

Derailed Freight Car Suspended by Coupling Pin From Poughkeepsie Bridge Approach Keeps Homeholders Away Until Wreckers Remove It.

For about five hours Monday morning, a freight car of a Central New England train hung over the edge of the approach at Poughkeepsie to the Poughkeepsie bridge, spanning the Hudson river, a constant menace to the lives and homes of residents of Delafield street. Only a coupling pin, that held the car suspended from the rest of the train, which had been partly derailed, prevented the freight from plunging 100 feet to the roofs of the houses in the street below.

Residents of the street, aroused by the crash of the accident, which is believed to have been caused by a broken air pipe, fled the district at 5:30 o'clock in the morning, many remaining away from their danger threatened homes until the suspended car was finally dragged back on the track at 10 o'clock in the morning.

John J. Karney, an officer in the supreme court at Poughkeepsie, whose home is almost directly beneath the bridge at the point from which the car was suspended, fled from his home with his two small children at the time of the accident. A huge throng of residents of the section gathered at a safe distance during the morning to watch railroad wrecking crews in their efforts to pull the car back on the track.

The feat was finally accomplished by starting a wrecking locomotive from each end of the bridge. Cranes were then fastened to each end of the suspended car, and the veritable sword of Damocles was removed from Delafield street-homes. Many railroad workers live in the district.

L. H. Loder, of Poughkeepsie, conductor on the train, suffered internal injuries when he was caught between two cars of the train. His injuries are not fatal.

The accident is believed to have been caused when the air brakes were applied suddenly through the break in the air pipe.

Traffic across the bridge was delayed for nearly five hours while wrecking crews worked to pull the car back from the abyss.

Strawberry Shortcake and Strawberry Puffs

Fruit Shortcakes

It was formerly the custom to make shortcake with strawberries but now delicious shortcakes are made with other fruits, including raspberries, blackberries, loganberries, hennas, peaches and oranges; dried or stewed fruit, and all varieties of canned fruit. Other fruit, therefore, can be substituted in following recipes:

Old-Fashioned Shortcake

3 cups flour
1/2 cup sugar
1/2 cup butter
1/2 cup cream
1/2 cup milk
1/2 cup vanilla
Mix dry ingredients; add in shortening, add milk to make soft dough. Roll out 1/2 inch thick in round form large cake. Cut in 1/2 inch squares. Bake in 25 to 30 minutes in moderate oven. With sharp knife cut each into 4 small squares.

Strawberry Puffs

1 cup shortening
1 cup butter
1 cup milk
1 cup sugar
1 cup vanilla
1 cup cream
1 cup flour
1 cup baking powder

CLEVELAND'S SUPERIOR BAKING POWDER

Made from
Cream of Tartar
derived from Grapes

Heat water and shortening in saucepan until boiling point is reached, add sifted flour; all at once and stir vigorously. Remove from the fire as soon as mixed and add uncooked eggs, one at a time, beating mixture thoroughly; add baking powder; stir well, and drop by spoonfuls 25 inches apart on greased tin. Shape into circular form with wet spoon. Bake 20 to 25 minutes in moderate oven. With sharp knife cut each into 4 small squares.

STRAWBERRY FILLS

1 cup white sugar
1/2 cup cream
1/2 cup butter
1/2 cup milk
1/2 cup vanilla
1/2 cup cream
1/2 cup flour
1/2 cup baking powder

Place all in bowl and beat with wire whisk until very stiff.

It should cover with following:

FRUIT STRAWBERRY ICING

Cream 1 large can of sweetened condensed milk and 1/2 cup of sugar. Beat until stiff. Add 1/2 cup of strawberry jam. Beat until stiff. Spread on top of each puff.

HALF BILLION SAVED IN NEW ARMY MEASURE

By Telegram to The Freeman.
Washington, June 15.—Ample provision for the development of aircraft and yet a saving of half a billion dollars on the estimates of the war department is provided in the army bill as presented to congress by the house and senate military affairs committees.

Senator James W. Wadsworth of New York, in submitting the final figures to the senate, had this to say: "The bill as reported from the senate committee carries a total of \$418,000,000, as contrasted with the estimates of the department amounting to \$982,000,000. It is less than half the amount asked for by the war department. The house passed the bill carrying an appropriation total of \$378,765,824. We have added \$42,152,317, making a total carried in the bill, as presented to the senate, of \$418,918,141. The principle elements in the increase in the bill over the house figures are this aviation item of the appropriations for the pay of the army."

"Briefly, this is the situation with respect to the aviation item. The country will probably remember the extended debate we had on the army appropriation bill for the current fiscal year, and that, as a result of the conference between the two houses on that bill, the army aviation got a \$25,000,000 appropriation, and the same amount was given to the navy, although the army aviation is four times as large, or it should be. With that \$25,000,000 given to the aviation branch of the army this year, that service has been able to maintain itself insofar as maintenance of the fields and the training schools, the research and engineering work largely done at Dayton, experimental work on machines, the pay of civilian employees, draftsman, engineers, experts and other ordinary maintenance items and has also been able to secure the manufacture of the impressive number of five airplanes on an experimental model, one each."

"With the exception of those five—and they are experimental—all the airplanes now in the possession of the army of the United States are two years old. Most of them are De Havilland 4's which were manufactured during the war, which proved to be of bad design, and several of which have been remodeled as to the placing of the seats in the fuselage, in order that the American flyer, if he comes to grief in the machine, may have some show for his life. Those machines, as I have said, are all two years old; they are out of date as compared with the machine of other countries."

"We also have a few German Fokkers, which constitute our share of the division of the airplanes which the German government surrendered under the armistice. We also purchased at the end of the war a few British RE-5's. All those machines are two years old; comparatively they are out of date. The best testimony that the military affairs committee can get is that by the end of another year they will be worn out and will not be safe for flying, and by that time the Army of the Republic will have no airplanes at all worthy of being called serviceable and up to date."

"The aviation service have asked

for an appropriation of \$60,000,000, but for next year they have asked for \$60,000,000. The house of representatives gave them \$27,000,000. They came before the military committee and showed us, as we think conclusively, that if they are continued to an appropriation of \$37,000,000 they will not be able to produce a single airplane type during the next fiscal year, and that, as a result, at the end of the next fiscal year the fliers of the United States army will have to walk on the ground."

Holbrook Blinn in "The Ivory Snuff Box" at the Auditorium tomorrow, also "Fatty" Arbuckle comedy. A heroine of an entirely new type is portrayed by Dorothy Dalton in "The Market of Souls," which will be on view at the Auditorium tonight. Miss Dalton plays the part of a girl from upstate New York who has been trained as a nurse and comes to live with friends in New York city.

It is always pleasurable to anticipate the advent of so admirable an actor as Chauncey Olcott who will make his reappearance here at the Kingston Opera House tomorrow night in one of his most notable successes "Macushla."

WITTENBERG.

Wittenberg, June 14.—Mrs. Lauretta Short spent last week at the home of her daughter, Mrs. S. L. Short.

Children's Day exercises were held in the M. E. Church and despite the stormy weather they were largely attended. The church was decorated with daisy ropes, roses and peonies. The children rendered their parts nicely.

Myron and Albert Myers of Samsonville spent the week end with relatives in this place.

The community was saddened to hear of the death of Calvin Short of Saugerties.

Florence Van Etten, who has been seriously ill with pneumonia, is improved at this writing.

Mrs. E. Reynolds of Kingston spent a few days last week at the home of Sherman Short.

There are several city guests in this vicinity.

Grade examinations were held in the school on Wednesday and Thursday last.

Freilan Van DeBogart of Kingston was in this place on Sunday.

They Will Fight Man.

It is said that in England the weak sometimes hunt in little packs consisting of a dozen or more; and that there are well authenticated cases of their having resented the interference of man, promptly attacking the latter, and absolutely placing him in danger of his life, says the American Forestry Magazine, Washington, D. C.

The Weightiest Cause.

Men understand not what is among their hands; as calmness is the characteristic of strength, so the weightiest causes may be most silent.—Thomas Carlyle.

OLCOTT'S VISIT MAY BE YEARLY

Chauncey Olcott, the celebrated tenor, will appear tomorrow night at Kingston Opera House in the Irish comedy "Macushla," from the pen of Rida Johnson Young. Mr. Olcott's success is well known to those familiar with stage folk. For several years his name has been linked with comedies, especially those of Irish setting. "Macushla" is said to be a delightful comedy, proving very popular at the Park Theatre from which place, it is said, it comes direct to Kingston.

Kingston theatergoers have long been crying for good plays with the best that the stage produces, and Manager Gildersleeve has given evidence this year of endeavoring to fill this desire. Not so long ago Margaret Anglin appeared here, and now comes Chauncey Olcott. Mr. Gildersleeve states that if tomorrow night's house is favorable to Mr. Olcott, he will play Kingston each year. There has already been a large demand for seats, but of course there are still some good ones remaining.

MISSIONARY MEETING.

Unusual Interest at Clinton Avenue Church Society Gathering.

The Woman's Home Missionary Society of the Clinton Avenue M. E. Church held their meeting in the church parlor on the regular meeting day with Mrs. Cranston, the president, presiding. This meeting was of unusual interest as quite a number of the ladies were present who had attended Founders' Day exercises at Watts DePoyster Home and several made brief remarks on the thing that impressed them most during the day's visit there. The report of the annual convention held at Catskill was also given.

Then came the most interesting part as among those present was Mrs. George Grinton, who with her husband, Dr. Grinton, district superintendent, had but recently returned from attending the general conference held at Des Moines, Iowa, and while she could only touch on a few of the wonderful subjects discussed there, it made every woman present feel glad she had a small part in the work that is being done by the Woman's Home Missionary Society of the Methodist Episcopal Church.

PALENTOWN.

Palentown, June 14.—Mrs. S. E. Krom and daughter Eula Mae, returned to their home in Maybrook on Tuesday after spending a few days with their parents here.

Those who called at the Rooms home on Sunday were Mrs. William P. Dymond, Miss Bessie Reeves and Alonzo Haver.

Virgil Barringer had the misfortune to fall and hurt himself quite badly.

Dr. Dymond is still calling on his patients in this place.

Robert Dymond has returned to the lumber camp after spending a week at home.

Grade examinations were held in the school the past week.

Mrs. Mary Brannen is reported improving nicely after her long illness.

KINGSTON PLEASES EMILE BACHELET

Kingston, N. Y., June 14, 1920.
Editor Freeman.

Dear Sir:—In view of the large attendance and interest shown at the lecture and demonstration given by me at the high school auditorium on June 9, I am desirous of indicating my appreciation of the assistance that I have received from various sources in this city in helping me to bring the results of my efforts for many years to so appreciative an audience as the people of Kingston.

I feel especially indebted to the newspapers of the city for their advance notices and their very complete and intelligent reports of the demonstration, to the Kingston Consolidated R. R. Co., and the Kingston Gas and Electric Co. and their employees for the assistance and materials furnished and the many courtesies shown to Prof. Michael, Lewis and Service, of the high school, and the many high school boys who rendered such valuable assistance in preparing the demonstration apparatus, to Forsyth & Davis, for the space for a window display and the many other stores that lent a hand by displaying our cards and distributing our tickets, and to the Bachelet Medical Appliance Co., whose initiative and co-operation made the demonstration possible.

I wish to add that I have been very much attracted to Kingston from the first time I came here, purely on a visit to see the company operating under my patents here, and since having come in closer touch with the people of your beautiful city, I am still more determined to make Kingston my future field of operation for carrying on my further scientific researches. I have been much pleased to note the interest displayed by many young men since the lecture, and I shall be very glad to co-operate in any way I can in an educational way to help them in their scientific investigations.

Yours very truly,
EMILE BACHELET.

Army Musicians Needed.

Musicians who desire to join the U. S. army are offered an opportunity to become members of the 13th Infantry Band, which has headquarters at Camp Devens, Mass., as men are needed playing the following instruments: Two cornets, one alto horn, one E flat clarinet, four B flat clarinets, one trombone, one snare drummer, one tenor saxophone, and one alto saxophone. Applications can be made at the army recruiting station at the Kingston main post office.

MARSH GREATLY DISGRUNTLED

HIGHLAND L. O. O. F. BUYS PROPERTY

Farmer's National Council Leader
Business Platform Adopted At
Chicago And Will Take Action If
Bureaucrats Do No Better.

By Telegram to The Freeman:
Washington, June 12.—Thoroughly
angry by what he considers the
betrayal by the Republicans of the
farmers of America, Benjamin
Marsh, secretary and director of
legislation of the Farmers' National
Council, today embarked upon a
campaign of publicity, planned to
convince politicians the farmer vote
is a power to be reckoned with at
election time. Mr. Marsh has just
returned from Chicago, where he
presented the platform of the Farm-
ers' National Council, to a com-
mittee of the Republican national
convention.

"The attitude of the Republican
platform on agriculture does not
contain a single declaration to re-
assure the farmers of America,"
said Mr. Marsh.

"While it expresses the belief of
the Republican party that the crisis
of the present difficulty in the farm-
ing industry lies in prices, labor
and credit and that the situation can
be improved by adequate farm rep-
resentation in appointments of gov-
ernment officials and commissions,
it does not pledge this representa-
tion. Why not?"

Mr. Marsh asserted the platform
mentions several specific evils in the
agriculture situation, without at-
tempting to provide a remedy for
them and declared he suffering
patient could ever be persuaded that
a diagnosis is as good as a cure.

Failure of the platform to pro-
vide for amendment of the federal
farm loan act to facilitate acqui-
sition of farm land, lack of a pledge
to enact legislation to give farmers
long time credits and failure to
authorize continuance of the federal
trade commission were other short-
comings with which Mr. Marsh
charged the farmers of the Republi-
can platform.

"The platform evades compelling
the profiteers of America, who got
twenty million dollars out of the
war, to pay their fair share of the
costs," Marsh declared. "It makes
no provision or pledge as to how to
pay off our national debt of nearly
thirty billions, and the wobbly
glance on taxation gives no hope to
those who had a right to expect a
declaration for prompt payment of
that debt by a tax on special privi-
leges and monopolies."

In speaking of the plank on mer-
chant marine, Marsh said:

"The plank endorses the trans-
portation act and legislation to turn
the people's ships over to British
and American shipping trusts.
These two measures jointly will
cost the farmers of America at least
two millions a year; and for those
measures the Republican party must
assume responsibility, although a
few Democrats voted for them and
they were signed by a Democratic
president. The farmers of America
will wait to see what sort of a plat-
form is adopted at San Francisco."

"Sport Not Worth the Candle."
"It's a poor sport that is not worth
the candle" is from George Herbert's
"The Poet's Dream," a collection of
poems dated 1891, which had ap-
peared in a shorter form as "Outland
in Prose" in 1890.

Highland, June 12.—Announce-
ment has been made here that the
property at the corner of Main
street and Vineyard avenue, known
as the Webster block, has been pur-
chased by Sunshine Lodge of Odd
Fellows through the real estate
brokerage office of Shephard &
Wyckoff. The consideration is not
given.

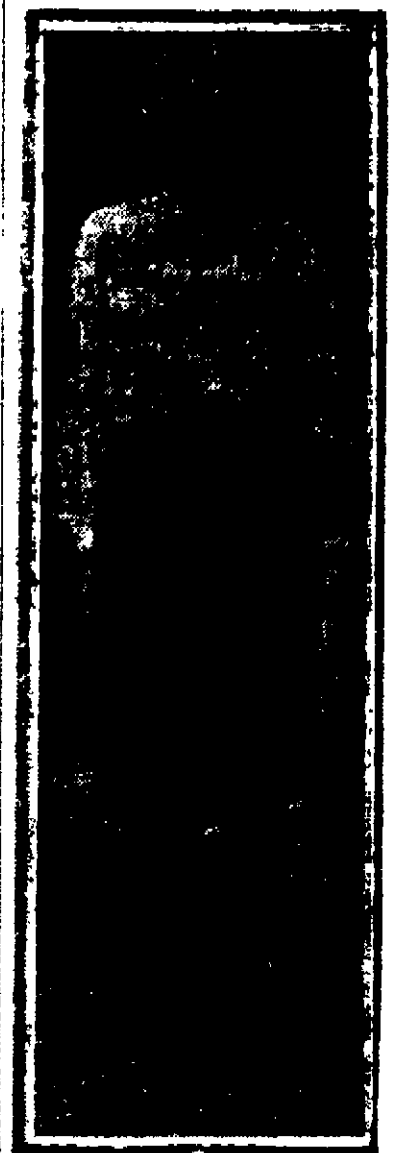

The lodge plans to improve the
property by the erection of a three
story stone and concrete building,
which will be devoted to commercial
and lodge purposes.

The plans for the new building
call for stores on the main floor with
a large auditorium on the second
floor to be used for public gatherings
and entertainments.

The third floor will be devoted to
lodge room and ante-rooms.

In the basement the lodge con-
templates the establishment of a
gymnasium and social rooms.

The contract for the construction
of the new building has not as yet
been awarded although the plans are
now well under way.

Warren G. Harding, Senator from
Ohio, the Republican nominee for
the Presidency, is often seen on the
golf links at Washington when Con-
gress is in session. The Senator, it
is said, is a devotee of two sports,
golf and poker, the latter an indoor
variety. Upon being notified of his
selection as the G. O. P. nominee,
Senator Harding is said to have re-
marked that his nomination was like
drawing a full house to a pair of
eights.

ST. REMY.

St. Remy, June 12.—The annual

Mr. and Mrs. Edgar Ackerman and
daughter, Margaret, and Mrs. Neale
Barn returned to their home in Au-
burn on Saturday after spending a
few days with Mr. and Mrs. Luther
Freer.

This community was shocked to
hear of the sudden death of William
Hall. He retired in his usual health
on Monday night and died with
apoplexy about 2 o'clock. He leaves a
wife and one son and brother-in-
law to mourn his loss. The funeral was held
from the residence on Friday after-
noon at 2:30. The services were in
charge of Rev. L. Applebourn, inter-
ment in the St. Remy cemetery.

Louis Van Vleet and family were
in this place one day the past week.

Mr. and Mrs. Walter Kuhnert, Mr.

Portage

ALL OVERSIZE Tires

THE PORTAGE PATH, which passes through
the great rubber city of Akron, was once a
rude trail over which Indians and trapper guides
portaged the canoes and baggage of the early
settlers as they journeyed from Lake Erie to the
Ohio River.

For many years this trail—the *Cuyahoga-Tuscarawas Portage*—
formed the boundary between warring Indian tribes, serving
as a neutral strip upon which hostilities were suspended. It
was here that Gen. Moses Cleveland, the founder of the city
of Cleveland, set a cornerstone to mark the Western boundary
of the United States. By the "Ordinance of 1787" this Portage
Path was declared to be a highway "forever free" between the
North and the South.

The boundary of the United States is still free
to the west; the trappers and Indians have gone;
the once modest Portage Path is now a broad
motor highway. The automobile has replaced the
canoe; the place of men have come pneumatic tires to
fill the role of "carriers" in modern locomotion.

TEN years ago the first Portage Tires were built in a little
factory that faced the historic Portage Path. That small
factory has grown and expanded to huge proportions because
of the big mileage performance and ruggedness of the tire.

A notable Portage Tire advantage is this: soft, yet strong, yet
very tough and long-wearing black tread. It's the only tire that
the life out of ordinary tire-treads. But the greatest quality of
the PORTAGE tire is its ability to hold its shape under the most
utmost. This yielding quality—plus the scientifically correct
non-skid tread pattern—insures big mileage, easy riding
comfort and this protection on city streets or country roads.

SEEK TO ASSURE CANNING SUGAR

By Telegraph to The Freeman: Washington, June 15.—A. W. Riley, special assistant to the attorney-general, will return to his New York office today to direct the campaign by which it is hoped to supply the demand for sugar during the coming canning season.

He will conduct the work through a national sugar distributing commission, composed of representatives of refiners, sugar importers and industries consuming sugar, and wholesale grocers. The plan in general, is to allocate the available sugar to the requirements of the canning industries and the needs of the housewives for canning purposes. No one will be actually shut off, it was said, but the so-called non-essential lines, such as candy, soda and chewing gum manufacturers will get secondary consideration.

Mr. Riley explained that the sugar supply is low and that to avoid loss of fruit and vegetable crops is necessary to pro-rate the sugar supply.

An appeal will be made to the people, he said, to practice conservation. Hotels will not be shut off, but many have voluntarily laid plans to economize.

PLENTY OF DEM. "DARK HORSES"

By Telegraph to The Freeman.

Boston, June 15.—A deadlock in the Democratic national convention with McAdoo, Palmer and Cox, the leading candidates in the balloting for the presidential nomination, was predicted today by United States Senator Hitchcock, who is visiting here today.

The Democratic stable is full of "dark horses," he said.

Senator Hitchcock predicted the platform at San Francisco would back the league of nations, but "leave the way open for interpretative reservations," while condemning the "nullifying Lodge reservations." He did not look for a fight over the league in the convention.

The Nebraska senator did not believe there would be a dry plank in the Democratic platform, as the United States supreme court has put an end to bringing prohibition into party platforms. The senator thought the Volstead act should be liberalized.

Thirteen members of the Massachusetts delegation to the convention were on their way to San Francisco today "not interested in anything except freedom for Ireland," they announced. Senator Hitchcock said the Irish question was not a political one. However, he thought something in a modified form might be considered by the convention.

PRINCES WORK.

Young German Royalty Now Farmers, Clerks, Etc.

By Telegraph to The Freeman:

London, June 15.—Scions of royal houses in Germany are having rough sledding under the republic and four of the ex-kaisers young nephews have just gone to work said a Berlin dispatch to the Daily Express. They are the sons of Princess Margaret of Prussia, the ex-kaiser's youngest sister.

One has become a farm laborer, to learn agriculture from the ground up, and he works from 5 a. m. to 8 p. m. Another is studying engineering. The third has apprenticed himself to a firm of architects and the fourth is a clerk in the demobilization department.

Who Will Win the Trumpet?

The citizens' committee has offered as one of the prizes during the H. V. F. A. convention this week an artistic trumpet, which is now being displayed in the store window of Treasurer A. J. Murphy on the Strand. The trumpet is a prize well worth winning, and attracts considerable attention from those passing the store.

Opportunity For Sound Investment That Pays Now

These dividends are now earned on a straight conservative basis—there is no speculation and no speculation, the business has been established for the last five years, and has a growing record for reliability and reputation. It is devoted to selling, buying, exporting, reimporting and trading typewriters and adding machines of various makes. We now have two stores in operation in New York City, and both are profitable. We now seek additional capital, in order to enlarge our facilities of operation, by opening up a chain of stores throughout Greater New York and other large regions. Our two present stores being profitable, it stands to reason that others will be equally successful. The money we need for this purpose, we are now obtaining from investors who are willing to invest in this business, and who are willing to invest in this business, and who are willing to invest in this business.

UNFAIRLY BEATEN
Say Victory Eagles and Will Try and Trim Wilbur Feds Friday.

To Editor of Kingston Daily Freeman.
We, the Victory Eagles, having read through your columns of our defeat by the Wilbur Feds, desire to protest this game by means of your paper. Our reasons are several, but the main two. First, because of the umpire on bases, who gave every decision for Wilbur, many of which he changed after the side lines told him what to say and this umpire got in the way of every ball so no player could get it. We could not take him out because of fights, which were very numerous there. Second, because of the side liners, which would block the way to first and from third to home so as the Eagles could not get a man to first and if he got there he was pretty sure of not getting home. This also made many fights. Wilbur also placed all the men from the side lines in the game, taking the team out which the Eagles were supposed to play.

Hoping that you will give this protest careful consideration, we remain,
P. S.—So as to prove that the Eagles were not defeated fairly, they have challenged to play the Wilbur Feds on the Athletic Field Friday night. This challenge has been accepted by the Feds and promises to be a good game.

DECIDING GAME WAS FORFEITED

In School League By Ball Tossers of School No. 6 Monday Afternoon—School No. 3 Wins Downtown Section and School No. 7 the Uptown Section.

The deciding game for the uptown section championship in the school league was forfeited by School No. 6 on Monday afternoon to School No. 7 when the ball tossers from No. 6 left the field. School No. 7 was leading in the last inning by a score of 3 to 1. School No. 6 was at bat and had a man on second. He was caught going to third but the No. 6 fans claimed a balk. Empire Rice and Empire Sears decided it was not a balk, and that the man was out. The team from No. 6 then quit, and Empire Rice awarded the game to No. 7 by a score of 9 to 0.

The series of three games to decide the championship of the schools will start Wednesday afternoon at the Athletic Field. School No. 3, winning team in the downtown section, will cross bats with School No. 7, winners in the uptown section.

NO SHAVES ON THURS. AFTERNOON

The boss barbers of the uptown section met in joint session with those of the lower part of the city, Monday evening, and it was unanimously decided to close their shops on each Thursday afternoon during every month of the year, closing at 1 o'clock and not opening until the following Friday morning. It was also voted that all shops be opened mornings at 7:30 o'clock, commencing July 1, the closing hour to be 11 o'clock on Saturday nights. The matter of a change in prices was not brought up for discussion.

RANSOMVILLE.

Ransomville, June 11.—The first quarterly conference of this district was held at the parsonage at Ransomville on Tuesday, P. W. Davis attended.

Harry Lane of Wittenberg called at H. L. Myers on Sunday.

Mr. and Mrs. J. H. Perrier have returned from James Livingston's at Colerain where they attended the yearly meeting of the Methodist Church. They came by way of Kingston and visited Mrs. Edna Markie, who with her daughter, Edna, expects to go to Ransomville for the summer where Mr. Markie is employed.

Forrest and Myron Myers spent Thursday in Wittenberg.

We are glad to learn that the Ransomville family is out of danger of diphtheria.

We expect to have special services in the church soon.

The leader of the Epworth League meeting is to be Miss Genevieve Moore.

Mr. and Mrs. Noah Barringer and son, Guy, and Fred Pallen motored to Ransomville on Saturday.
